

Addendum 2 (Page 1 of 2)
Request for Proposal FY17-1117 Aerial Photography Services

Addendum No. 1 (herein referred to as "Addendum")

This Addendum revises the above-described procurement, and is hereby incorporated and made a part of the above-described procurement as if the Addendum had been included in the original procurement documents. Addendum posted on website at www.orangburgcounty.org-Procurement.

This addendum is as follows: Questions/Responses (See Red) – November 14, 2016

1. Section D: Analytical aerial triangulation. Can an ASPRS Certified Photogrammetrist (which is not a state-specific certification) sign off on the analytical aerial triangulation, as long as we use a South Carolina Professional Licensed Surveyor for the ground control survey?

As stated in the RFP under "Analytical Aerial Triangulation/Section D", yes, a licensed South Carolina Photogrammetric Surveyor has to sign off on the project.

2. Attachments C & D: Can the county provide shapefiles (or other standard format) for the coverage tiles depicted? If not, for this proposal, may we assume the deliverable orthophoto and building footprint coverage will be 1372.2 square miles? (equivalent of 1,449 tiles at 5000'x5000' each)

Yes we can provide these shapefiles. Please email baddison@orangeburgcounty.org to request these files.

3. Section II.A.4, regarding supplemental control: Can the county provide files for "existing survey coordinates and ground based photography"?

The SCGS (South Carolina Geodetic Survey) will assist in collecting up to 25-30 Photo ID points, the vendor can select areas and SCGS will collect the best possible Photo ID point(s) in that area and provide NAD83/2011 Positions on the Photo ID Points. There will also be a digital photograph of the Photo ID set up.

4. Section II.E.2, regarding previously derived DTM/DEM: Does the county have access to an existing DTM/DEM, and if so, could it (or the coverage area) be provided (along with metadata regarding date collected, source, and accuracy)?

**There is LiDAR data available online from the DNR site for the counties:
<http://www.dnr.sc.gov/GIS/lidarstatus.html>**

5. Does the county have a sample of existing building footprint deliverables that could be provided?

NO

- 6 Under the Vendor Qualification and Information (p. 18) item 3 does not seem to apply as this would not be considered a design-build service contract. Could this be removed or re-worded to be more applicable?

Please delete any reference to design-build.

Correction P. 18, Item 3 : Documentation of a contractual relationship between vendor and a client for a current or recent aerial photography contract pursuant to which vendor has been the exclusive provider.

Please acknowledge addendum receipt in proposal package. Failure to acknowledge addendum may cause for disqualification.
