

Addendum 2
Request for Proposal FY17-1130 Inmate Health Services

Addendum No. 1 (herein referred to as "Addendum")

This Addendum revises the above-described procurement, and is hereby incorporated and made a part of the above-described procurement as if the Addendum had been included in the original procurement documents. Addendum posted on website at www.orangburgcounty.org-Procurement.

This addendum is as follows: Questions/Responses (See Red) – November 23, 2016.

Please acknowledge addendum receipt in proposal package. Failure to acknowledge addendum may cause for disqualification.

Question 1

I have a question about the RFP on page 9 concerning Computers and Phones. Would it be possible to put a 3meg A-VPN Circuit in place to allow access to an Electronic Medical Record as well as Radiology images and Medication Administration? It says in your RFP that the County will supply the computers, phones and internet but we accustomed to supplying our other sites with large bandwidth high security and would like to propose the same for your facility. We are completing our proposal and wanted to ask before including it in our documentation.

Response 1

Are you asking that will the county allow a 3meg vpn circuit to be installed in the jail by the regional medical center for accessing to medical record? Is that supposed to be 3meg or 30meg? 3meg just doesn't seem like much for radiology images. The County do not see an issue with your organization providing your own computer equipment and data services being the County IT Services dept. has to manage anything connected to our network. The County is in the process of Installing a new county wide phone system which the County would be preferable to use over using your own phone services.
